LEADERSHIP AND RESPONSIBILITIES

Technology Robotix Society, IIT Kharagpur

Governor | July, 2017 - April, 2018

I led a three-tier team to successful planning and execution of all the year-long activities of the society which includes organizing the annual Robotix fest, conducting seminars and workshops for students at IIT Kharagpur and other colleges in India, and initiating new research projects in robotics.

Kharagpur Winter of Code (KWoC) 2017, IIT Kharagpur

Mentor | December, 2017

I mentored 4 students in KWoC (organized by *Kharagpur Open Source Society*) which is a 5-week long GSoC-styled programme for students who are new to open source software development.

Project: <https://github.com/sourishg/stereo-calibration>

IEEE Robotics Winter Workshop, IIT Kharagpur

Mentor | December, 2015

I conducted a week-long workshop for first and second year undergraduates at IIT Kharagpur. I taught basic image processing using OpenCV and C++, and micro-controller programming using an Arduino UNO board. As a final project of the workshop I helped the students build a simple object tracking differential drive robot.
